

# Vera Tonic

Assistant Professor, Department of Mathematics,  
University of Rijeka  
PhD University of Oklahoma, 2009.

Research interest: geometric topology; topological dimension theory; asymptotic dimension  
applied in geometric group theory

## Recent publications:

- [1] L. Rubin, V. Tonic, *Simultaneous  $Z/p$ -acyclic resolutions of expanding sequences*, **Glasnik Mat. Ser. III, 48(68)** (2013), 443-466.
- [2] V. Tonic, *A proof of the Edwards-Walsh Resolution Theorem without Edwards-Walsh CW-complexes*, **Topology and its Appls. 159** (2012), 3314-3318.
- [3] V. Tonic, *Bockstein basis and resolution theorems in extension theory*, **Topology and its Appls. 157** (2010), 674-691.

## Selected publications:
