iii. Cooperation Intention

What do you expect from ANSO?

1. A strong and credible voice for the academic community, addressing the public, representing the interests of members to decision-makers and providing regular information
2. A high level of professionalism and facilitation of engagement/interaction.
3. Networking Flexible Access for scientific research, career development opportunities to promote professional growth, learning and Professional Mentoring Programs.
4. Members are expected to meet key quality standards and comply with local, state, provincial and federal laws.

How can you contribute to ANSO?

Be active and influential:

1. Through our core values of professionalism, collaboration, innovation, respect and care, integrity, commitment and excellence, we encourage creative ideas and determination through the following strategic thrusts:
 - World-class research,
 - Attracting talent through world-class resources and networking opportunities through joint programs with top universities and laboratories, ranging from basic research to large-scale field implementations,
 - Development of competences and skills through high-level research activities, well-equipped postgraduate courses and international exchange programs.
2. To promote, develop and facilitate cooperative activities in the essential elements of key scientific and academic issues and technologies
3. To be a centre of excellence for advanced research, development and demonstration of innovative ecosystem management and sustainable development under the umbrella of "China-Croatia 'Belt and Road' Joint Laboratory on biodiversity and Ecosystem Services. To build an internationally influential domestic research platform for excellent international cooperation in the field of biodiversity and ecosystem services, to strengthen the voice and influence of both China and Croatia in the world and to contribute our wisdom and efforts to build a community with a common future for people.
4. Cooperative activities, including joint interdisciplinary research projects, joint field studies, exchange of scientists and students, organization of academic symposia/workshops/summer schools, double degree program and joint mentoring, mutual visits of technical and management experts
5. Facilitating the creation of knowledge and technology transfer through cooperation with research institutions, universities and government agencies
6. Participation in forums, networks, campaigns and support to policy-making.

iv. **Notes**

Procedures for ANSO membership are based on the agreement of ANSO Statutes and carrying out ANSO member obligations. Please fill in this Form and return it to ANSO Secretariat at Ms. Jingyuan Feng (jingyuan.feng@anso.org.cn) or Prof. Ailikun (aiali@anso.org.cn). The ANSO Secretariat will submit this Form to the ANSO Governing Board for further deliberations.
